REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The instant method of alleviating the effects of viral infection by administering a composition comprising t10, c12 CLA and c9, t11 CLA in a ratio of about 1.2:1 to 3:1 is considered to be unobvious and unanticipated over the prior art.

The closest prior art (US-5,674,901) discloses that CLA can be used in said manner in alleviating the effects of viral infection. However it is not taught or suggested that t10, c12 CLA is more active than c9, t11 CLA and that compositions enriched with 10,12 CLA in a ratio of about 1.2:1 to 3:1 will be more effective.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Oath/Declaration

2. The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application-by-application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:

The signature of the first inventor on the Oath does not match the printed name.

The printed name is Daria Jerome and the signature is Daria L. Stansky. A corrected oath is required.
